FEEDBACK FOR CHANGE

Student voice

Freshman- *Teach me how to be respectful and what things are appropriate for school or the workplace.*

Sophomore- *They can help by giving us more responsibilities and more real world information, allowing us to be a better worker or college student.*

Junior- *I think my school could benefit in bringing in leaders in industry to talk to us about these certain skills, but also we should learn more industry-related topics. We need to learn on how to collaborate with others more effectively, too, by making projects where both parties are required to do work together.*

Senior- *Offer courses that apply and demonstrate real world problems and solutions, rather than book work to memorize for tests that will be forgotten.*
