

Instructional Coach Network

Join a professional network of your peers!

Instructional Coaches are invited to a one-day workshop and on-going networking and coaching focused on how to support your teachers reaching their learning targets while implementing MVA experiences into their classrooms.

Benefits & Takeaways

- Strategies for coaching teachers on making target and curricular connections.
- Strategies for introducing resources and processes to teachers for student success.
- Strategies for improving the quality of MVA experiences for student success.
- How to support student agency in MVA experiences.
- Access to resources and coaching throughout the 23/24 school year.
- Network with other instructional coaches both in-person and online.

Key Components of a Client Connected Project

- Engaging with industry professionals (clients) to create projects.
- Making connections to curriculum and targets
- Creating student structure and roles
- Project management
- Building and maintaining relationships
- Use of tools and technologies to facilitate the CCP experience
- Student-led problem solving and project pitching
- Tracking MVA experiences for your district reporting strategy
