All Network convenings will be held at the Kauffman Foundation Conference Center (4801 Rockhill Rd. KCMO) unless otherwise noted in the registration form.

Communities of Practice

This year, our Communities of Practice meet-ups will each take a deep dive into a specific MVA. The format will include local and national keynotes, breakout sessions and networking opportunities.

Peer Learning Network | Workshops & Convenings

This past summer, the RWL Hub launched Peer Learning Networks (PLN) for school counselors, instructional coaches, teachers, and RWL coordinators to identify shared challenges, opportunities, resources, and tools specific to their roles. PLNs will meet up bi-monthly throughout the school year. Agenda topics will be specific to the role and created by a newly formed advisory group of 6 people from each Network.

Navigating Change Workshop Series

RWL Leads and coordinators will work to build skills and lead change in their policies and practices that open up the possibilities for implementation of RWL in their districts. Through a series of six sessions, participants will be trained in navigating and facilitating the changes needed to achieve deeper implementation of RWL goals and activities.

Principal Fellowship

The fellowship is a chance to use a community of practice framework to analyze and leverage data, use change management strategies and increase student agency. The fellowship will be personalized to meet the unique needs of each high school.

Student Voice

Students will engage in activities focused on student agency and voice in Real World Learning. Three student-led groups will be formed: **Student Voice Leaders** - using student voice to inform RWL at classroom, school, and state levels. **RWL Student Ambassadors** - raising awareness and providing mentorship to peers on the benefits of RWL experiences; and **RWL J-Lab** - sharing RWL stories via print, digital, podcast, and video.

Initiatives

Micro-Credential Framework

Healthcare Pathways | Aims to streamline the process for regional learners and healthcare providers to identify, verify, and complete prerequisites for healthcare experiences.

Educator Recognition | Seeks to provide micro-credential recognition for educators implementing strategies that help learners acquire MVAs.

Learner Recognition | Designed to enhance the process of rewarding learners for obtaining marketable assets and describing their value.

Networking & Fellowship

The RWL Hub has identified professional learning, change management, and peer networking to increase human capacity and ensure learning opportunities for specific roles within the network for RWL success and sustainability.

Industry Pathways & Partnerships

Employer engagement continues to be a key focus, especially in high-needs careers like health, manufacturing and construction.
